

Description: Greenfingers volunteer groups meet regularly to carry out various park maintenance tasks. Our focus is on nature conservation and community gardening. Much of what we do looks to have a positive impact on the park's wildlife and the local community's wellbeing.

No prior knowledge is required. You will have the chance to learn and share knowledge with other like-minded people. If you enjoy being outdoors, meeting new people and manual work then Greenfingers is the place to be!

We're also looking for some 'Super Greenfingers Volunteers' who will help us lead sessions such as Nature Tots or family activities. Full training will be provided; you'll be working with one of our Parks Activators as they deliver these sessions, but you will be an extra pair of hands to help on the day.

Location: Any one of the eleven [Nature Recovery Project parks](#)

Time commitments: 3-4 hours for a session which run weekly or fortnightly.

What you will help with:

- Undertake general park maintenance
- Maintaining the community gardens
- Harvesting fruits & veggies
- Seeding wildflowers
- Planting trees
- Clearing non-native shrubs
- Clearing paths
- Litter picking
- And much more!

You will gain:

- Knowledge about native plants and wildlife
- Growing skills using permaculture and regenerative farming principles
- A chance to connect with like-minded people in your community
- Increased time spent outside in nature
- Tea, coffee and biscuits!

If you are interested in the role and would like to find out more, please let us know which park you'd like to get involved with:
